EDUCATION

Vellore Institute of Technology | BTech in Computer Science — Expected 2026
- CGPA: 8.06

Nirala Junior College, Nagpur | XII (HSC) — 2021 - 2022
- Percentage: 86.67%

Sri Guru Harkrishan Public School, Nagpur | X (CBSE) — 2019 - 2020
- Percentage: 92%

TECHNICAL SKILLS

Programming Languages: Java, SQL, HTML5, CSS3, JavaScript, Python
Frameworks and Libraries: React.js, Node.js, Express.js
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, IntelliJ IDEA, VS Code

PROJECTS

Food Ordering Website | GitHub — July 2025
- Developed a full-stack Food Ordering Platform using the MERN stack (React, Vite, Node.js, Express, MongoDB) to manage end-to-end food ordering operations efficiently.
- Built secure JWT-based authentication and implemented role-based access control for both user and admin dashboards, ensuring data privacy and controlled access.
- Designed and deployed RESTful APIs for product management, shopping cart, and order processing, integrating Stripe Payment Gateway for a seamless checkout experience.

Policy Insurance Website | GitHub — Feb 2025
- Developed a full-stack Policy Insurance Management System using PHP, MySQL, HTML5, and CSS3, improving efficiency in policy registration and management processes .
- Engineered secure user authentication modules with input sanitization, form validation, and password hashing to safeguard user data and enhance system reliability.
- Implemented role-based access control (RBAC) to manage user privileges effectively, ensuring data confidentiality and preventing unauthorized access.

Disease detection in apple plant using AI | GitHub — Feb 2024
- Accelerated plant disease diagnosis from hours to seconds through efficient computer vision algorithms processing 50+ images per minute.
- Led 5-member team in curating 1,200+ diverse leaf image dataset, expanding sample variety by 35%.
- Fine-tuned model accuracy reducing false positive rates by 27% for production agricultural deployment.

POSITION OF RESPONSIBILITY

Edu4U Club | Event Management and Planning **Co-lead** — Aug 2024 - Present
- Successfully led the planning and execution of two major events with 200+ attendees during college fest, along with multiple other club events.
- Streamlined team operations for 20+ volunteers, reducing setup and logistics time by an estimated 25% across four club and college events.
- Improved event efficiency by delegating tasks and streamlining communication across cross-functional teams.

EXTRA CURRICULAR ACTIVITIES

- Participated in **5+ hackathons** and technical competitions (e.g., CodeVita, Smart India Hackathon) over **3 years**, applying knowledge of algorithms and data structures.
- Led the college team to **1st place** in the Inter-College Cricket Tournament (out of **10 competing teams**), managing player strategy and team cohesion for **6 successful matches**.
- **Hobbies:** Cricket, Chess, Football, Badminton.
